Description
-------------

The world's leading tour operator to Iceland and provider of educational and enriching trips across 6 continents. Discover the World Education have more than 30 years' experience organising safe, quality and informative tours.

Each trip is designed around the national curriculum and all activities have been thoroughly hand-picked and road tested to ensure educational requirements are met and each trip is tailored to a group's individual needs. This is one of the reasons why that in 2014, 100% of groups who travelled with Discover the World Education rated their services as either good or excellent.

They also provide free award-winning classroom resources on [Discover-Geography.com](http://Discover-Geography.com) where teachers can access and download worksheets, study-aids, hi-res geography images and geography related news articles. As accredited members of the School Travel Forum they offer a comprehensive independently audited safety management system, plus full financial protection and a no-surcharge guarantee.
