Description

For over 20 years, Dukes Education has provided expert guidance on entrance to top UK independent schools, prep schools and leading universities. Our group contains the globally-renowned Oxbridge Applications and Jon Tabbert Associates, providing guidance to students applying for Oxford, Cambridge and top US universities. We believe in starting, supporting students of every age from early years to senior school, preparing a clear pathway to excellence at leading universities. Our world-class private tutors (over 85% Oxbridge-educated) support academic and personal development alongside our London sixth form and study centres. Our Summer Boarding Courses also create the immersive, fun and effective learning environments of british boarding schools and universities. We have supported over 60,000 students, through our research, resources, events and one-to-one mentoring with a team of over 1700 Oxbridge-graduate tutors.
