| Description |
|-------------|
|-------------|

We are the in-country premier choice of discerning customers for supplying schools, colleges and universities in Qatar with all their educational needs. We regularly win government tenders and have built up an enviable reputation for supplying quality products at a good price with an excellent service. Our in-country service and support simply cannot be matched by any company attempting to supply the often complex Qatar market from abroad. We are in Qatar 365 days a year. We support British business by sourcing our products mainly from UK publishers and manufacturers, and for many of these British companies we are their preferred distributor in Qatar.

We also supply from other world markets when required by our clients. We can fast track orders or store and supply-on-demand through our warehouse facilities in Qatar. We are experienced in supplying single school start-up projects, school expansions and multi-school government roll out projects.
