Description

Travelbound offer educational school trips designed specifically for International Schools worldwide. We are tour specialists with the experience, knowledge and passion to organise unforgettable trips that inspire students to learn, long after they return home. Our tours stimulate the mind and the senses, and with each new experience is a chance for students to learn more about their subject, the world and their own potential. With over 27 years in the business of school travel, we know what it takes to organise educational trips that are unforgettable and enriching. With a team made up of specialists in their field and located around the world, we share your passion for your subject. Using our on-the-ground knowledge, we ensure you get the most out of your tour.

We are always on hand to assist you, from helping choose your ideal trip, to advising you on how to complete risk assessments and health and safety paperwork or helping you promote your tour. Your dedicated Tour Co-ordinator is there to discuss any queries, while schools group leaders are assigned a Regional Account Manager for support with presentations and depending on location, face-to-face meetings.
