Description

Whilst gaining the Education Resources Award 2010 for Exporter of the Year, Findel Education continues to be the leading independent supplier of educational resources and pedagogic toys to global educators.

With experience and expertise in exporting to more than 150 countries, Findel Education offer a complete range of educational resources for all levels of establishments, from preschool through mainstream education to colleges and universities.

Through their wide portfolio of brands, Findel Education is relied upon globally to provide world class equipment, renowned quality and excellent service. Findel Education provide a variety of resources from general classroom supplies, curricular resources and art and craft material, through to furniture, early years and specialist resources for special needs, physical education and science. In addition to supplying resources, Findel

International Projects division has a strong heritage in managing full scale educational builds, re-models and refurbishments.
