Description

ITS a Destination Management Company for International and Local Schools. ITS provide a service for schools in planning and preparation of school tours.

We specialise in IB Diploma CAS projects and tours, Duke of Edinburgh Award Scheme, adventure trips and expeditions, activity weeks for MYP and a variety of Curricular tours for Primary and Senior/High Schools including language, cultural, historical, performing arts, geography and sports tours.

Our destinations are worldwide with over 50 programmes on offer. Programmes can be tailored to suit the school and budget.

ITS currently work with a number of schools based in the Middle East, Asia, Far East and Europe. Many of our Middle Eastern school links are part of BSME.

We pride ourselves on a high standard of service and quality of provision, sending an ITS member of staff on each trip to ensure the group benefit from our expertise even during the trip. Our safety standards are strictly adhered to on all activities to ensure all groups have an exciting, memorable and fun experience. ITS's a discovery!
